SUMMARY

Motivated full stack web developer and decisive leader. Transitioning from accounting to a developer role. Recently completed the Rutgers University full stack certificate. A critical thinker and efficient problem solver with over two years of diverse professional experience. Most recently have made an interactive MERN application within a team of four to help readers interact and share books online. Passionate about continuous improvement of front end/back end skills and professional growth. Disciplined, objective focused, and detail oriented work ethic when handling projects. Excited and prepared to be a valuable asset to a strong team.
